HISTORY OF DEER LODGE

Deer Lodge is the second oldest town in Montana. It has had several names over the years, such as: LaBarge City, Spanish Fork, Cottonwood, Deer Lodge City and now Deer Lodge.

Float gold was discovered in 1852 on what is now Gold Creek. The location of this first discovery of gold, in Montana, is about twenty miles north of the city. Pan and sluice mining of gold by James and Granville Stuart, in 1860, attracted other prospectors and the district was established.

Today, beautiful homes and tree-shaded lawns reflect a home life enviable in this day of big city stress and strife. Many churches, an excellent elementary and high school system, a progressive business community and with the downtown beautification project finished it enhances the balanced and healthy lifestyle enjoyed by our citizens and visitors.

The pure enjoyment you can have in Deer Lodge and Powell County is limitless: Hiking, horseback riding, snowmobiling, cross-country skiing, fishing, hunting, mountain biking, back packing and photography at their very best. Ours is a magical land. A part of the "BIG SKY COUNTRY" otherwise known as the "THE LAST BEST PLACE!" with primeval forests, glistening mountaintops, gleaming lakes, and abundant wildlife.

Powell County has diverse industries, farming, ranching, mining, timber harvest, lumber & wood product production and tourism.

The tourism industry has been carefully developed so as not to cause an atmosphere of being a tourist trap. We welcome our visitors and want you to enjoy the historic attractions that are presented. We want your stay in our community to be an educational, entertaining and pleasant experience.

Please exit 1-90 and stop to rest for a while. Our motels are clean and comfortable, our restaurants serve good food and our other businesses invite you to come in and browse around.

We thank you for considering a visit or relocation to our friendly and proud community.
